

**LEARNING MANAGEMENT SOLUTIONS  
TRAINING MANAGEMENT SYSTEMS  
ENTERPRISE ECOMMERCE SYSTEMS**

eLeaP™ Learning Management System (LMS/LCMS) is a complete, secure, web-based training and learning solution that employs a simple user interface. This way both technical and non-technical training managers can easily create, manage, and track interactive training courses and learning programs for all levels of users.

The eLeaP™ LMS is designed to fit any organization size. With it you will have the sophistication favored by big companies. Yet, you can enjoy the flexibility, simplicity and customization of a system that will not overwhelm or financially drain smaller organizations.

eLeaP™ is available and delivered online. Therefore you do not have to install complex programs, invest huge amounts in hardware and software or hire or maintain an expensive IT department. Your custom and secure learning site can be deployed in less than 2 minutes. You can begin creating and deploying training immediately -- at a fraction of the cost of traditional methods. According to ASTD, it costs \$1273/year to train one employee. eLeaP™ only costs \$12/year\*\* to train one employee!

**Training/ Learning Delivered Anywhere, Anytime, Anyhow**

Use eLeaP™ to deliver personalized learning and training to your entire organization. Whether you are a global enterprise or local operation, you can leverage the power, simplicity, and scalability of eLeaP™ to connect your customers, partners, and employees in a seamless self-service learning portal. Knowledge and learning can now be delivered instantly to everyone, anywhere in your organization. See our Enterprise account information for how to manage multiple instances of eLeaP.

# Enterprise Learning Management Technology

## A Simple, Easy to Use, and Secure Enterprise Training Management System

The eLeaP™ Enterprise LMS is designed to fit any organization size. With it you will have the sophistication of an Enterprise grade LMS system favored by big companies. Yet, you can enjoy the flexibility, simplicity and customization of an Enterprise Level LMS system that will not overwhelm or financially drain smaller organizations.

### Enterprise Account:

eLeaP enables Enterprise account holders to set up multiple eLeaP instances for each of their clients, departments or divisions. For example a training consultant can create multiple eLeaP accounts for each of their clients and be able to copy over courses from one account to another. Also a large organization can choose to create separate accounts for each department or division.

The Enterprise account comes with its own dashboard that enables easy account management including setting up new client accounts, creating new courses, copying or moving courses from one account to another and accessing activity reports across all managed accounts.

### Enterprise Accounts Billing:

The Enterprise Account is wholesale pricing package deal. You are billed for the total number of users across all your enterprise account clients. You can save up to 75% off our standard rates simply by using the Enterprise account.

## We simplify business training by providing the tools you need.
