Growth and opportunity

- In 2013, the revenues of self-paced e-Learning were around \$24.4 billion, globally. It is expected to cross \$27 billion by 2018.

What can you do with this information?

PROFIT FROM IT

www.eleapsoftware.com

The e-Learning market is one of the most rapidly growing sectors because e-Learning initiatives hold an edge over conventional learning modes due to their ability to reduce overall training costs while improving compliance and documentation.
